

# NATIVE ROOT

Long before European settlers arrived in North America, wild grapes grew along the shores of this region producing intensely sweet and foxy flavors in the wines produced from them.

**Native Root Red** is a celebration of Concord, one of the most popular of these original varietals. This sweet red is bursting with fresh grape aromas and flavors.

**Native Root White** is a celebration of Niagara. Fresh grape and tropical fruit flavors linger through the lightly sweet, moderately acidic finish.

**Native Root Rosé** is a celebration of Catawba, one of the most interesting of the original varietals. Bright and foxy flavors of fresh grapes in this sweet rosé.
