Other Available Services

- **Custom Crush & Fermentation:** Our custom crush offerings include membrane pressing for whites, reds, and rosés, along with thermovinification for reds (hot press). We also offer fermentation services for a wide range of wines and ciders.
- **Lab Services:** We utilize state-of-the-art equipment including an alcolyzer, densitometer, discrete analyzer, and spectrophotometer to provide comprehensive wine and juice analysis. Services include pre-harvest, pre- and post-fermentation, pre-bottling, quality control analyses, and wine and juice chemistry testing.
- **Private Label & Co-Packaging:** Business-to-business private label services are available for a variety of our products. We also offer artificial carbonation and custom bottling services for still wine, cider, and more.
